

1. Baby study preparation
 - a. Beanie babies – Linda to send link to DEL list
 - b. Paradigms- 16 minutes total, first Jordan, then Nicole, then Visual on 12378
 - i. Jordan's 6x25 native contrasts (8 minutes)
 - ii. Non-native contrasts (~5 minutes)
 - iii. Visual (4.5 minutes)
 1. Attention grabber
 - a. Delay is salient problem
 - i. Modify so that paradigm calls for pause more frequently
 - b. Modify that attention grabber continues as long as button held down
 - c. Other potential modifications
 - i. Vary attention grabber?
 - ii. Insert before each trial?
 2. Necessity of backdrop for monitor
 - a. Modify curtains that Linda had
 3. Back-burner modifications (Would reduce comparability to UCL version)
 - a. Alter cropping style
 - b. Change background to gray
 - c. Tips to add to Baby guidelines
 - i. Entertaining:
 1. Don't let baby hold objects, use finger so they have the sensation of grabbing something
 2. During visual paradigms, look to monitor rather than at baby
 - ii. Pause when:
 1. Baby looks away
 2. Motor artifact evident in NetStation
 - iii. Sending parents instructions in advance (e.g., feed hour before, bring bottle)
 - d. Misc
 - i. Measure for cabinet
 - ii. HIC 12378 amendments in progress
 1. Mother's face as stimulus
 2. Auditory stimuli?
 3. Jamie K23 congruence check
 - iii. Logistics
 1. Create schedule for data collection staff (rotation per session)
2. Eye-tracking
 - a. Jia working on eye-tracking revision, complete in next few days
 - b. Run 5 people starting end of this week or next
 - c. Manuscript completion date April 1
 - d. Babies – is SmartEye hardware viable (third camera?) or must we adapt code to new hardware?
 - i. Create model heads using Sim Baby or Aggie?
3. IT
 - a. Members only section of website functional (Jia to post minutes)
 - b. DROBO to back-up for movies
4. Net issues
 - a. Need to add electrodes to large hydrocel
5. Lab tidiness
 - a. Chris will make list of tidiness to-do to distribute to staff and students
6. Special meetings
 - a. Journal Club first Tuesday of each month (Baby emotional faces March 2)
 - b. Data presentation – Mike and Pete
 - c. Trainings to schedule
 - i. Danielle (GPS)
 - ii. Single Trial Analysis (Pete)
 - iii. Whole-Brain Searching of GeoSource solutions (Pete)
 - iv. Net repair training (Marion, Helena, Mike, Linda)
