

1. Baby study preparation
 - a. Bumbo seat – Mike adding belt and platform to table, nearly ready
 - b. Paradigms
 - i. Visual
 1. Mom/stranger face, familiar/unfamiliar toy (~5 minutes)
 2. Emotional/neutral face instead?
 - a. Eliminates logistical hassle of obtaining mother photos as we get started (could add in after we have collected sample with emotion paradigm)
 - b. Shorter
 - c. More theoretically relevant to this population?
 - ii. Auditory paradigms – Must finalize choice of paradigms
 1. Jordan's 6x25 native contrasts (8 minutes, immutable)
 2. Non-native contrasts (~5 minutes)
 - ~~3. Tones (~5 minutes)~~
 4. Non-speech? (~5 minutes)
 5. Mother/stranger voice? (~5 minutes)
 - a. Nonsense word?
 - b. Name?
 - c. Methodological issue = One "stranger voice" or rotating pairs?
 6. Limited overlap with Pelphrey paradigms
 - a. Japanese non-words/motherese?
 - b. Biological vs. non-biological sounds
 - c. Social biological versus non-social biological sounds
 - d. Mother/stranger voice?
 - iii. **This week for all paradigms we will run 50 trials per condition in each paradigm so we have standard metric for length comparison to aid in selecting final battery of paradigms**
 - iv. Plan will be to present set # of stimuli aiming for 15 good trials per condition
 - c. Misc
 - i. Baby friendly space - Status of cabinet purchase?
 - ii. Screensaver
 1. **Status of Chelsea recording of electric sheep?**
 2. **Mechanism for bouncing to it when trials paused?**
 - iii. HIC 12378
 1. **Amendment submitted to show mother's face as stimulus - status?**
 2. **Do we need amendment for auditory stimuli?**
 - iv. Logistics
 1. **Process for acquiring mother images and voice recordings at prior visit**
 - a. **Timing**
 - b. **Location**
 - c. **Voice recorder**
 - d. **Staff training**
 2. **Scheduling and staffing for data collection**
2. Eye-tracking
 - a. Pete touring Klin/Jones lab Thursday
 - b. Pete/Jia have system tracking better (actually tracked Jamie!) and communicating effectively with EPrime
 - c. Pete recommends eventual addition of third camera
 - d. Thinking forward to baby work – can SmartEye hardware work or must we adapt code to new hardware?
3. Boiler plate methods section (Mike)
4. Vagal Tone - HR monitor status?
5. IT
 - a. Members only section of website functional
 - b. VPN functional
 - i. All staff provide Pete with desire password
 - ii. Pete to instruct Mac users how to access VPN
 - iii. IT hire to instruct PC users
6. EPrime 2.0 operating on 300 system – must convert and test active paradigms in this lab

- a. ET Crosshair (Will likely need recoding)
 - b. Chris overseeing testing of other paradigms
 - c. Auditory problems still not working
- 7. Net issues
 - a. Pete spoke with 's Don, unlikely that net stringer will visit lab for lesson on updating 1st generation hydrocells
- 8. Special meetings
 - a. Journal Club first Tuesday of each month (Next = Feb 2)
 - b. Data presentation
 - c. Trainings to schedule
 - i. Single Trial Analysis (Pete)
 - ii. Whole-Brain Searching of GeoSource solutions (Pete)
 - iii. Net repair training (Marion, Helena, Mike, Linda)
